Intuit ProLine™
Power to Get More Done™

Intuit ProLine™ Tax Research

Real-time, one-source tax research right at your fingertips – without leaving your Lacerte® or ProSeries® program!

Why spend time and money using multiple research tools when you could save up to 50 hours during tax preparation² with one innovative research solution?

Intuit ProLine Tax Research powered by BNA is a comprehensive web-based tax research product designed for professional accountants who need relevant, real-time answers to tax-related questions, all within the context of the clients' return. This powerful new tool enables instant access to reliable research on updated federal and state compliance and planning information.

In partnership with BNA, a trusted leader in research, Intuit ProLine Tax Research offers dynamic, robust content conveniently embedded within Intuit's tax programs for easy access. With fully-integrated, context-

sensitive links on all forms and input screens in both Lacerte and ProSeries, tax professionals can use Intuit ProLine Tax Research without toggling between multiple programs, screens or offline searches, saving time and optimizing productivity each tax season.

Intuit ProLine Tax Research content is updated frequently and automatically, for the right answers, right when you need them.

MORE KEY BENEFITS:

- + "Follow-me-anywhere technology" builds relevant content and recommendations as you search
- + Capture full-page views of research results
 - + No extra fees for users or networks per office – a great value!
 - + Federal, state, and business content plus expert summary all at one low price
